

# TRANS DOE TASK FORCE

**Trans Doe Task Force** is a 501(c)3 non-profit organization that finds and researches cases of LGBTQ+ missing and murdered persons, especially focusing on unidentified individuals who may have been Transgender or gender variant. TDTF advises and educates the public, media, and forensic professionals about the needs and differences between Trans Doe cases and other Doe cases, as well as missing persons. TDTF can assist law enforcement departments, medical examiners, and forensic anthropologists with getting their cases' DNA evidence through the lab process, and has a Trans-led and extremely experienced Forensic Genetic Genealogy team.

**LAMMP (LGBTQ+ Accountability for Missing and Murdered Persons)** is TDTF's database of missing, murdered and unclaimed LGBTQ+ people which was created to serve the community by attempting to match any unidentified (Doe) or unclaimed cases with missing persons reports. We provide case support for the families and friends of missing LGBTQ+ people. The missing persons section of LAMMP is private to protect the details of those who may be endangered. Individuals who are reported as missing can self-report to us that they are safe, or securely store their personal information with us if they are concerned that they may go missing in the future. **#IfIGoMissing - We will look for you.**
